

CLINICALLY VULNERABLE?

There are extremely clinically vulnerable people who are still unknown to either City or County Councils

There are extremely clinically vulnerable people who are still unknown to either City or County Councils. It may be that these are people who are being looked after by relatives or neighbours, but if so the Councils would like to know, so that they can ensure everyone is being cared for. If this applies to you could you please let the City Hub know on 01223 457000
