

## EASING THE LOCKDOWN

People classed as clinically extremely vulnerable are advised to take additional action to prevent themselves from coming into contact with the virus.

- From 13 June If you are a single adult household – either you live alone or only with dependent children - you can form a support bubble with one other household. This means you can see other members of your support bubble indoors and outside. You will also be able to be less than 2 metres apart and stay overnight as if you were members of the same household. Individuals who form a bubble with one household may not form a bubble with anyone else.
- From 15 June You will be able to visit any type of shop and some additional outdoor attractions - drive-in cinemas, zoos, and safari parks
- Year 10 and 12 pupils in secondary schools and further education colleges will begin to receive some face to face support

### **You will have to wear a face covering on public transport**

People who are shielding remain vulnerable and should continue to take precautions but can now leave their home if they wish, as long as they are able to maintain strict social distancing

### **Clinically Extremely Vulnerable?**

People classed as clinically extremely vulnerable are advised to take additional action to prevent themselves from coming into contact with the virus. If you're clinically extremely vulnerable, you're strongly advised to stay at home as much as possible and keep visits outside to a minimum (for instance once per day)
