

INFECTION RATES IN CAMBRIDGE

Research update on infection rates in Cambridge

Research at King's College, London indicates that about 500 people in Cambridge are showing Coronavirus symptoms. This is 0.4% or 1 in 250 people (This compares with 0.2% or 1 in 500 in some coastal areas in East Anglia). Addenbrookes hospital reports that in the week May 11th -18th, they admitted 446 patients with Coronavirus infection. They had 89 patients in critical care. 252 patients were discharged and sent home well and sadly 107 died.

Care homes in Cambridgeshire were badly hit by the virus but the number of people dying in Care Homes has been steadily declining from a weekly death toll of 23 at the end of April to 14 last week.
