

ROLE OF YOUNG PEOPLE IN TACKLING PANDEMIC

New thought-provoking short film for young people

CAMBRIDGE City Council and Cambridgeshire County Council have produced a thought-provoking short film for young people, which acknowledges the sacrifices they have made during the pandemic, and asks them to stand firm to help beat the virus.

The four minute film, '*Part of the Solution*', was made in Cambridge using young actors and is aimed at older teenagers in schools and sixth form colleges. It can be viewed at
