

## **WILDLIFE FRIENDLY GARDENING TRAIL AT CAMBRIDGE UNIVERSITY BOTANIC GARDENS**

Exploring the ways you can attract different wildlife species to your garden.

Gardens not only provide us with pleasure and sometimes food, but also make up an important network of green space that can provide vital habitat for wildlife. Explore the ways you can attract different wildlife species to your garden by visiting Cambridge University Botanic Garden and taking a stroll around our 16 hectare wildlife oasis through the lens of a new [wildlife friendly gardening trail](#).
